SUMMARY

Technology Consultant with area of expertise in Java Spring Framework (MVC and Boot), MySQL, Oracle, PL/SQL, Mongo DB, JavaScript libraries (jQuery, Angular and Node).

SKILL SET

Java – J2EE, Spring MVC, Spring Boot, Spring Security.

Web – HTML, CSS.

JavaScript – Node, Angular, jQuery.

Database – MongoDB, Oracle, MySQL.

Knowledge of Cloud(AWS).

EXPERIENCE

JUL 2017 – CURRENT

CONSULTANT, COTELLIGENT INDIA PVT LTD

As a Technology Consultant, I extend my support in writing Java code in Spring Framework following MVC.

I create Models, Views, write Controllers for several functionalities. The best thing I did was to use Data Tables API so as to get part of the data from DB and load the remaining data through AJAX so that the time to load is less.

I take care of the front end - develop new functionalities, give the best UI/UX experience to the end user.

Technologies and Skills Used: Java(Spring and Boot), HTML, CSS, JavaScript, Bootstrap, jQuery and MySQL.

DEC 2016 – JUNE 2017

ANALYST/SOFTWARE ENGINEER, CAPGEMINI

I joined as a fresher. Initially I got trained on SQL, PL/SQL and Mongo DB in Capgemini.

I got into a project with an E-COMM client and was into Warehouse management where I was responsible for developing SDN's.

I developed Procedures, Functions and Packages in Pl/Sql and ensure smooth working of the database.

My other responsibilities included creating and deploying data fixes for the warehouse, executing daily checks, Health checks, clear downs.

Technologies: UNIX, Oracle 11g.
Software's Used: SQL Developer.

FEB 2016 – JULY 2016

SOFTWARE DEVELOPER(INTERN), SOURATRON PVT LTD

I joined as an Intern. I was in a team in which we developed a powerful Web CRM application for Gadget Rental Products built on latest robust and light weight technology which is platform as well as device independent.

Skills: NodeJS, Angular JS, HTML, CSS, JavaScript.

STRENGTHS

- **Quick learner** (Learnt Spring MVC in 3 days in my current project)
- **Problem Solver** (Used to resolve bug fixes and performance issues. The latest one was by using Data Tables API)
- **Passion for Coding and Analyzing things.**
- Currently learning Data Science and Machine Learning.
- Can adapt to new environments.
